Critical Intelligence Problems Committee

Weekly Activities and Status Report for DD/ICS--12 January 1984

CIPC Organizational Activities

- The DABM Task Force appears to be proceeding smoothly. We should have a draft interim report on Thursday or Friday for our review and Community coordination.
- The DCI Terrorism Analyst Network also appears on track. Meetings with technical experts have been convened and developmental approaches have been discussed. (See attachment.)
- Because of conflicting schedules and several TDY trips it was impossible to convene the CIPC with maximum principal attendance in January. We have tentatively scheduled the next meeting for 13 February.
 - We will coordinate our pending action items by correspondence.
 - The 13 February meeting will probably have a very full agenda.
- All the responses to the DCI's request for Critical Intelligence Problems have been received. We are presently compiling them into a comprehensive presentation for DCI and CIPC review. I might add some very interesting topics have been nominated.
- 25X1 ● Met with [] CIA CTer, on 11 January. He has an impressive academic background; he should be able to provide us some help. [] is anxious to give it his best. He is being sponsored in the CT program by OGI.
- 25X1 ● At last the Narcotics Report has been typed. It is presently being given a final proofing prior to sending it to you.
 - If all goes well, we should have it to the printers by Monday to get one more proof copy--to include all the annexes.
 - 25X1 - We will then ensure that no printing errors were made and return it to the printers for final draft printing.
 - 25X1 - Subsequent to this it will be forwarded to the DCI by the end of next week with the recommendation that the report be tabled at NFIC. (Note: Have already made tentative arrangements to table report at NFIC on 24 January 1984.)
- And the Cruise Missile report is undergoing a final proofing prior to final printing and dissemination.
- As you know, we have added Department of Energy to the Committee; attached is an updated CIPC organization matrix.

Working Paper

SECRET

25X1

Narcotics Projects and Activities:

- On 2 January, briefed Clyde Taylor, Deputy Assistant Secretary, Bureau of International Narcotics Matters, prior to the latter's trip to Madrid, Rome and Southwest Asia.
- Now that the National HUMINT Collection Plan on Narcotics has been received by all key narcotics countries, a package of correspondence has been developed for the DDCI's signature acknowledging NFIP and non-NFIP responses. The polite but succinct acknowledgement will stress the need to evaluate the Plan's operational implementation at a later date.
- have the Narcotics Subpanel working on the draft final report; if clerical support permits, it should be distributed to panel members for coordination by 12 January.

CBW Intelligence Problem:

- met with Assistant NIO at Large, on 6 January to discuss the proposed CIPC CBW study--he appears interested in the project. is familiarizing herself with the CBW files in anticipation of the January CIPC consideration of the problem. The TOR and discussion paper are in the process of being forwarded to the CIPC principals.
